

Dear Gabriel,

I enjoyed reading your presidential report on 'our' ISSS, a vibrant reality that has a past and a future. This, despite the unpleasant sides of a recent past.

My thanksgiving to you and those who variously supported the life of the ISSS in these troublesome times.

I can only hope that the incoming president, Michele Corradi, will do his best to reinforce the system of relations among the members of the Society, and its vitality as a learned society.

Warm greetings to you as well to every other member of the ISSS.

Livio Rossetti

PS/ Let me hope you will circulate these lines of mine.
